

# How to edit name of an existing iteration.

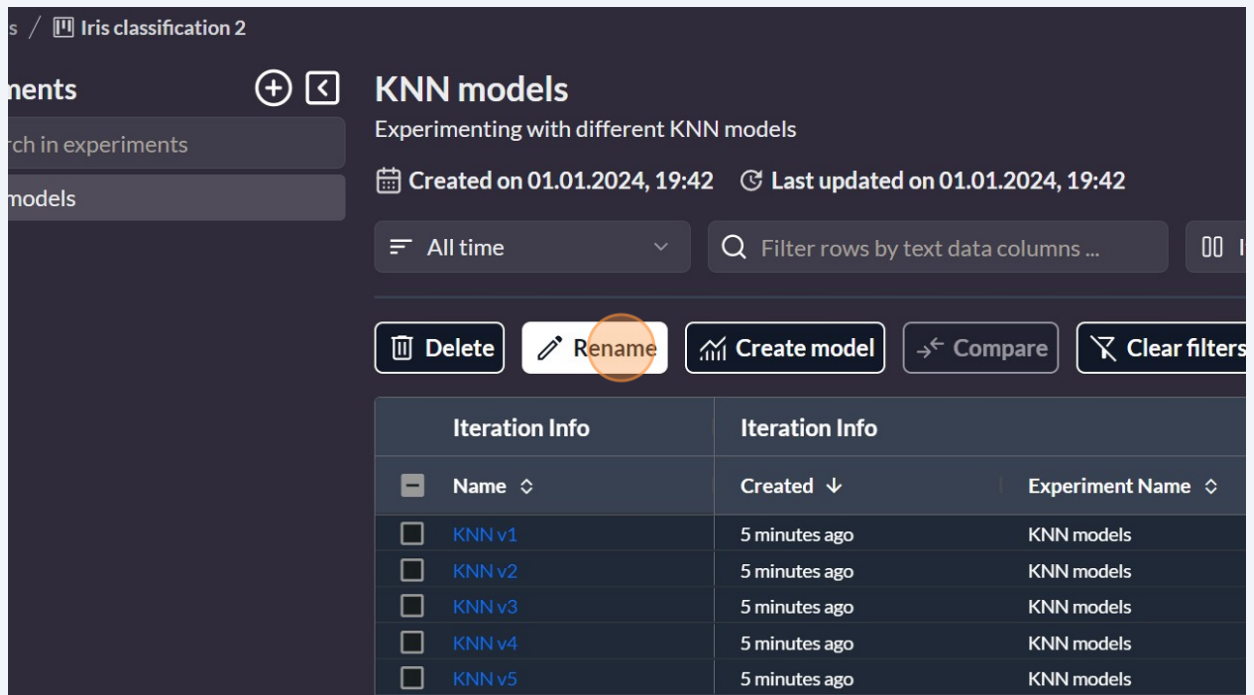

Step-by-step guide on how to edit name of an existing iteration.

1 Navigate to selected project and select experiment.

2 Select iteration to edit.

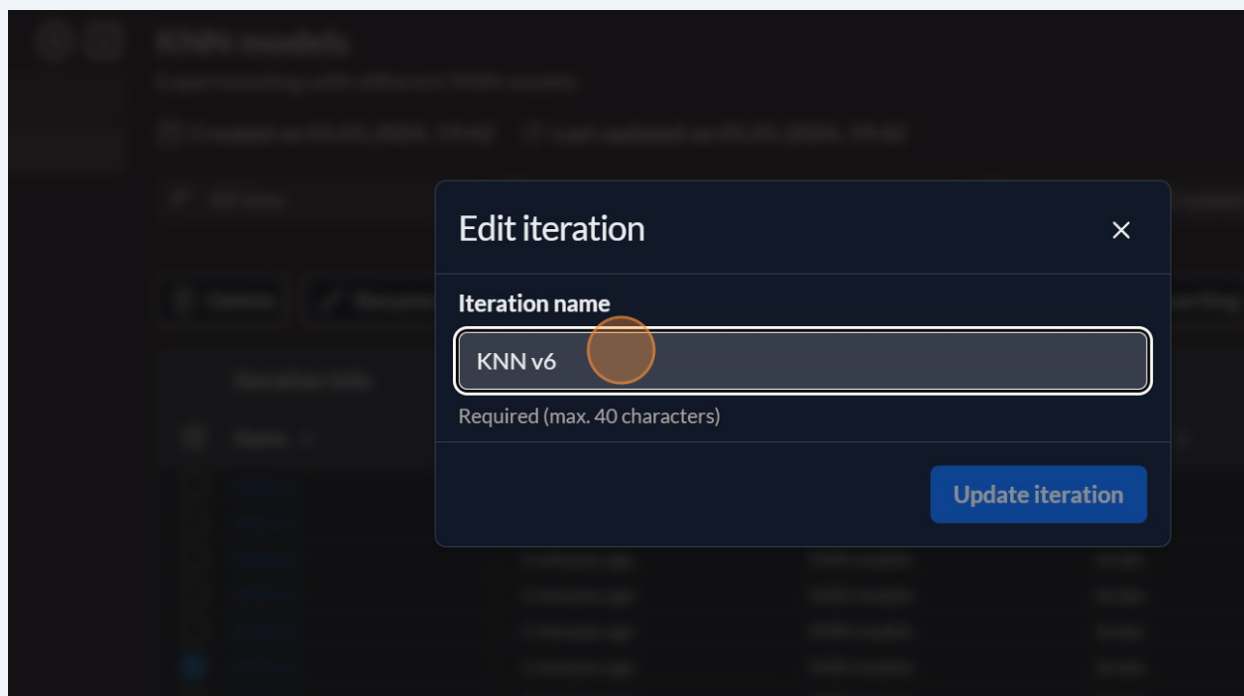

3 Click **Rename** button.

The screenshot shows the 'KNN models' experiment page. The 'Rename' button is highlighted with an orange circle. The page displays a table of iterations with columns for Name, Created, and Experiment Name.

Iteration Info		Iteration Info	
Name	Created	Experiment Name	
KNN v1	5 minutes ago	KNN models	
KNN v2	5 minutes ago	KNN models	
KNN v3	5 minutes ago	KNN models	
KNN v4	5 minutes ago	KNN models	
KNN v5	5 minutes ago	KNN models	

4 Edit **Iteration name** field.

The screenshot shows the 'Edit iteration' dialog box. The 'Iteration name' input field is highlighted with an orange circle. The dialog box contains the text 'KNN v6' and a button labeled 'Update iteration'.

Iteration name

KNN v6

Required (max. 40 characters)

Update iteration

**Iteration name** cannot be empty and longer than 40 characters.

5

Click **Update iteration** button.

Edit iteration

Iteration name

KNN v6.1

Required (max. 40 characters)

Update iteration

6

And there you go!
