

How to create your first project.

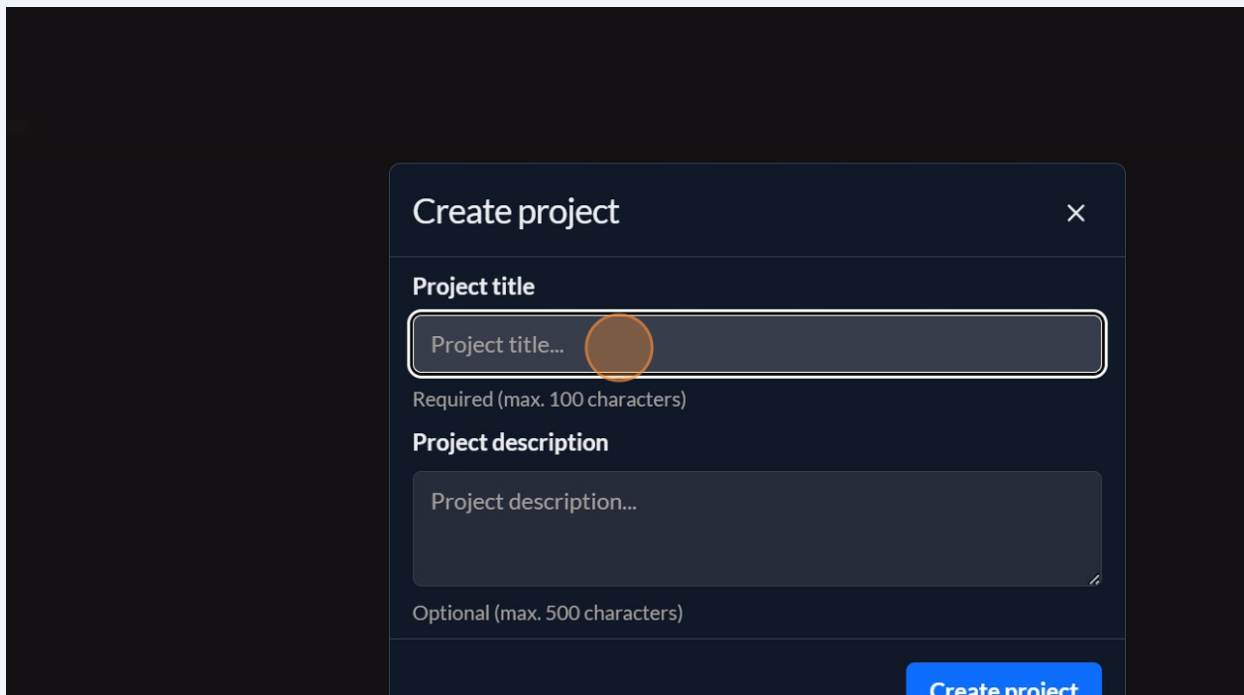

A step-by-step guide on how to create your first project.

1 Navigate to <http://localhost:3000/projects>.

2 Click **Create new project** button.

3 Fill in **Project title** field.

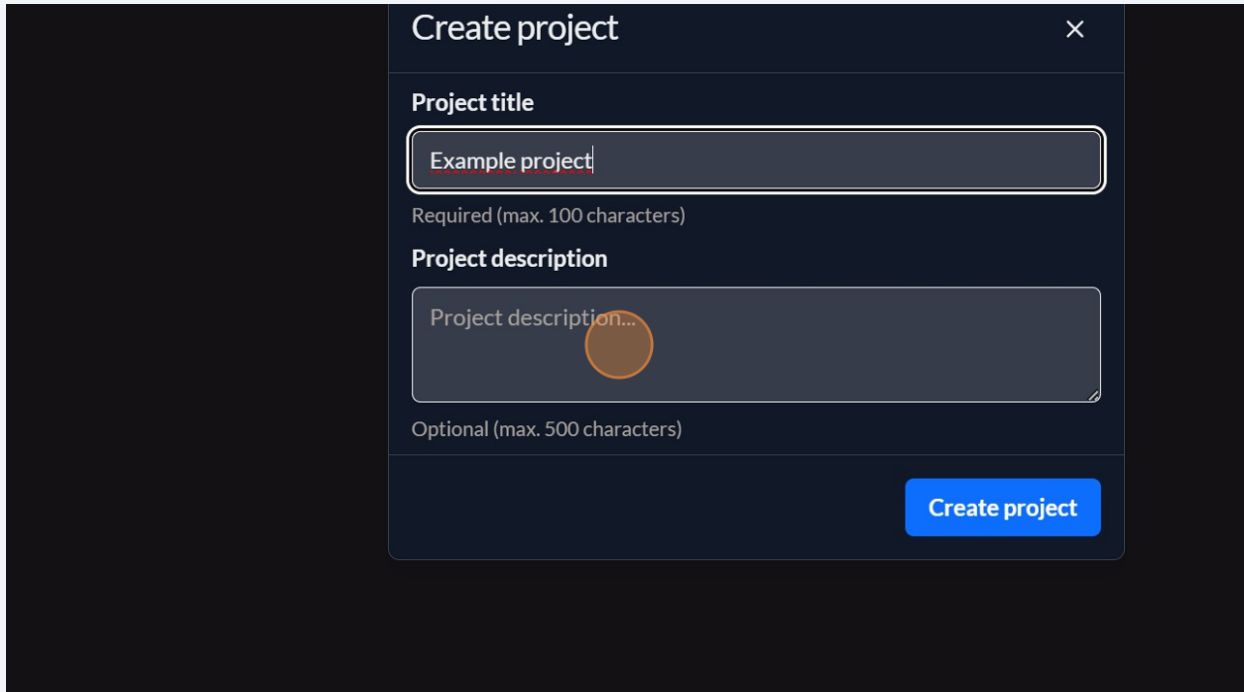

The screenshot shows a dark-themed 'Create project' modal window. At the top, the title 'Create project' is on the left and a close button 'x' is on the right. Below the title bar, the 'Project title' section contains a text input field with the placeholder 'Project title...'. An orange circle highlights the right side of this input field. Below the input field, the text 'Required (max. 100 characters)' is displayed. The 'Project description' section follows, featuring a larger text area with the placeholder 'Project description...' and a small icon in the bottom right corner. Below this area, the text 'Optional (max. 500 characters)' is shown. At the bottom right of the modal, there is a blue button labeled 'Create project'.

Project title is required and cannot be longer than 100 characters.

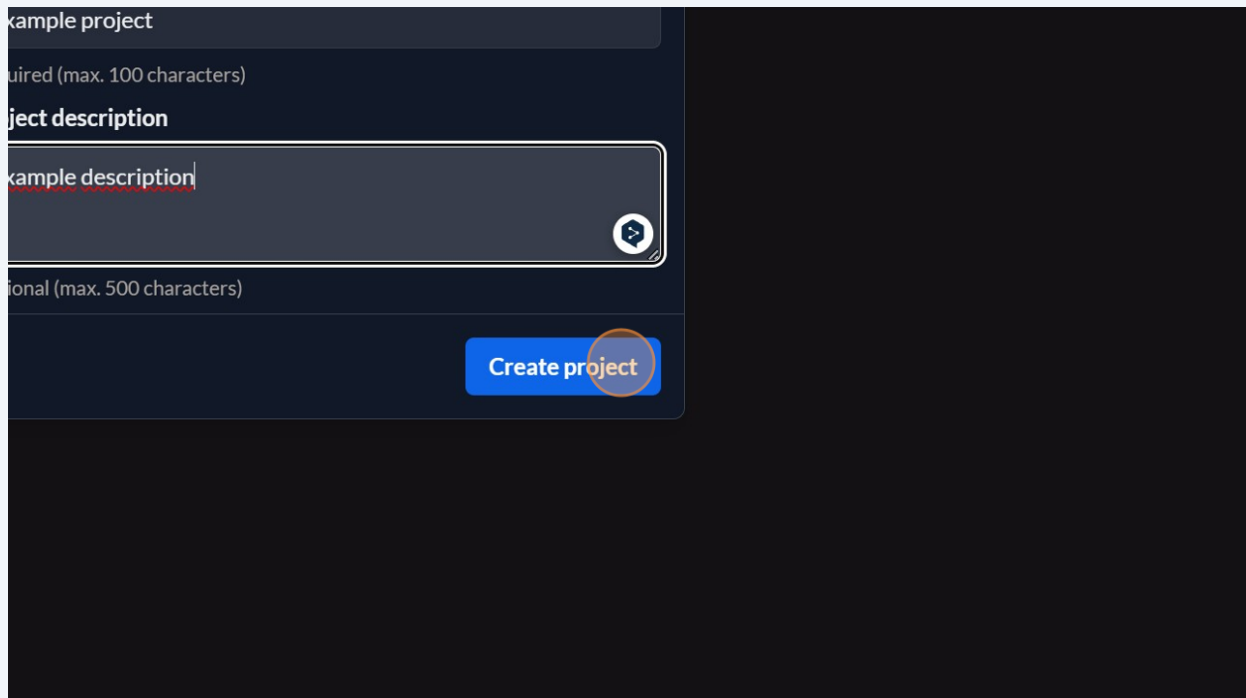

4 Fill in **Project description** field. (optional)

The screenshot shows a 'Create project' modal window. It has a dark blue header with a close button (X). Below the header, there are two main sections. The first section is 'Project title', which has a text input field containing 'Example project' and a label 'Required (max. 100 characters)'. The second section is 'Project description', which has a larger text input field containing 'Project description...' and a label 'Optional (max. 500 characters)'. The 'Project description' field is highlighted with an orange circle. At the bottom right of the modal, there is a blue button labeled 'Create project'.

 **Project description** is optional, but cannot be longer than 500 characters.

5 Click **Create project** button.
