

How to create your first experiment in project.

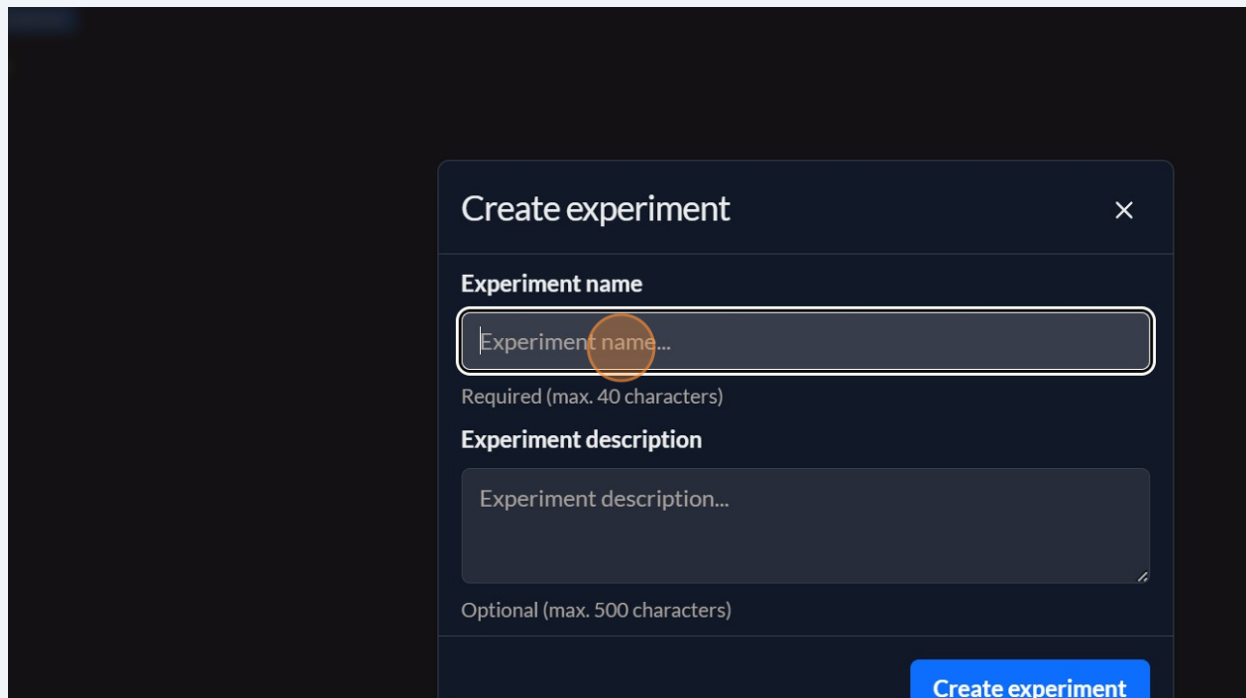

Step-by-step guide on how to create your first experiment in project.

1 Navigate to selected project.

2 Click **Create new experiment** button.

3 Fill in **Experiment name** field.

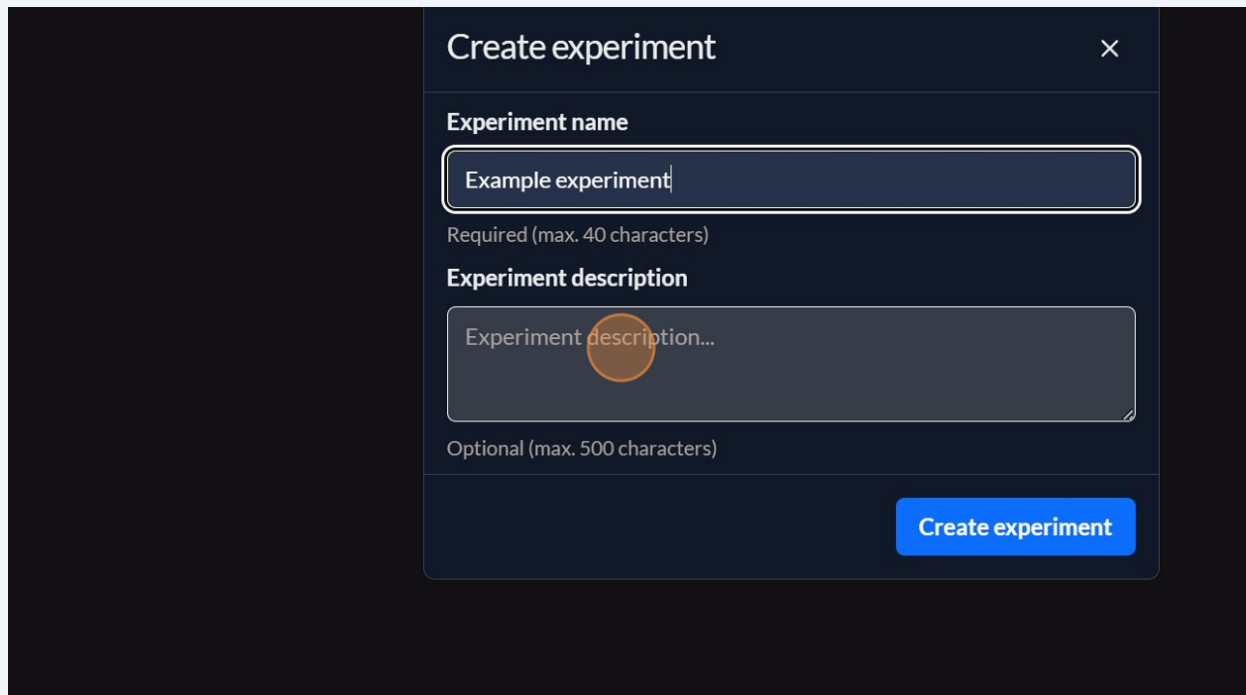

The screenshot shows a dark-themed 'Create experiment' dialog box. At the top, the title 'Create experiment' is followed by a close button (X). Below the title, there are two main sections. The first section is labeled 'Experiment name' and contains a text input field with the placeholder text 'Experiment name...'. An orange circle highlights the word 'name' in the placeholder. Below the input field, it says 'Required (max. 40 characters)'. The second section is labeled 'Experiment description' and contains a larger text area with the placeholder text 'Experiment description...'. Below the text area, it says 'Optional (max. 500 characters)'. At the bottom right of the dialog, there is a blue button labeled 'Create experiment'.

Experiment name is required and cannot be longer than 40 characters.

4 Fill in **Experiment description** field. (optional)

Create experiment ×

Experiment name

Example experiment

Required (max. 40 characters)

Experiment description

Experiment description...

Optional (max. 500 characters)

Create experiment

i **Experiment description** is optional, but cannot be longer than 500 characters.

5 Click **Create experiment** button.

Example experiment

Required (max. 40 characters)

Experiment description

Example description

Optional (max. 500 characters)

Create experiment

6 And there you go!
