8 Click **Edit chart** button.

The screenshot shows a dark-themed configuration panel for a chart. It has three main sections: 'X-Axis column' with a dropdown menu showing 'petal-width', a note 'Histogram will be based on this column.', 'Bin method' with a dropdown menu showing 'Fixed number of bins', and 'Bin number' with a numeric input field containing '4' and a note 'Required (min. 2)'. At the bottom right, there are two buttons: 'Reset form' (red) and 'Edit chart' (blue). The 'Edit chart' button is circled with an orange line.

9 Follow the same procedure for other types of charts.
