

How to sort iterations in grid by specific column.

Step-by-step guide on how to sort iterations in grid by specific column.

1 Navigate to selected projects and select experiments.

2 Select column and click on its heading to sort in ascending (alphabetical) order.

All time Filter rows by text data columns ... Iteration info, Created, Ex

Delete Rename Create model Compare Clear filters Clear sorting

Iteration Info		Iteration Info		
<input type="checkbox"/> Name		Created	Experiment Name	Run By
<input type="checkbox"/>	Press sub	8 minutes ago	Example experiment	Lauren Walker
<input type="checkbox"/>	Psychologist, prison and pr...	8 minutes ago	Example experiment	Natalie Rosales
<input type="checkbox"/>	Soil scientist	8 minutes ago	Example experiment	Christopher Sims DD
<input type="checkbox"/>	Conference centre manager	8 minutes ago	Example experiment	Matthew Barnes
<input type="checkbox"/>	Air broker	8 minutes ago	Example experiment	Shawn Gibbs
<input type="checkbox"/>	Geographical information s...	8 minutes ago	Example experiment	Taylor Daniels
<input type="checkbox"/>	Surveyor, rural practice	8 minutes ago	Example experiment	Ashlee Russell
<input type="checkbox"/>	Geologist, engineering	8 minutes ago	Example experiment	Rachel Peters
<input type="checkbox"/>	Museum/gallery curator	8 minutes ago	Example experiment	Scott Yates

i Data in grid is sorted by default by iteration creation date.

3 Click on column heading again to sort in descending (reversed) order.

The screenshot shows a data management interface with a dark theme. At the top, it displays 'Created on 01.01.2024, 20:36' and 'Last updated on 01.01.2024, 20:36'. Below this is a filter bar with 'All time' and a search input 'Filter rows by text data columns ...'. A row of action buttons includes 'Delete', 'Rename', 'Create model', 'Compare', 'Clear filters', and 'Clear sorting'. The main table has two sections, both titled 'Iteration Info'. The first section has a header row with 'Name' (highlighted with an orange circle and an upward arrow), and a list of roles like 'Air broker', 'Conference centre manager', etc. The second section has headers 'Created', 'Experiment Name', and 'Run By', with corresponding data rows.

Iteration Info		Iteration Info		
<input type="checkbox"/> Name ↑		Created	Experiment Name	Run By
<input type="checkbox"/> Air broker		8 minutes ago	Example experiment	Shawn Gibbs
<input type="checkbox"/> Conference centre manager		8 minutes ago	Example experiment	Matthew Barnes
<input type="checkbox"/> Geographical information s...		8 minutes ago	Example experiment	Taylor Daniels
<input type="checkbox"/> Geologist, engineering		8 minutes ago	Example experiment	Rachel Peters
<input type="checkbox"/> Museum/gallery curator		8 minutes ago	Example experiment	Scott Yates
<input type="checkbox"/> Press sub		8 minutes ago	Example experiment	Lauren Walker
<input type="checkbox"/> Psychologist, prison and pr...		8 minutes ago	Example experiment	Natalie Rosales
<input type="checkbox"/> Soil scientist		8 minutes ago	Example experiment	Christopher Sims DD
<input type="checkbox"/> Surveyor, rural practice		8 minutes ago	Example experiment	Ashlee Russell

4 Click on column heading again to clear sorting.

This screenshot shows the same interface as the previous one, but the 'Name' column in the first 'Iteration Info' section is now sorted in descending order, indicated by a downward arrow in the header. The list of roles is now ordered from 'Theatre stage manager' at the top to 'Conference centre manager' at the bottom. The rest of the interface, including the top bar, filter bar, and action buttons, remains the same.

Iteration Info		Iteration Info		
<input type="checkbox"/> Name ↓		Created	Experiment Name	Run By
<input type="checkbox"/> Theatre stage manager		8 minutes ago	Example experiment	Ronald Smith
<input type="checkbox"/> Surveyor, rural practice		8 minutes ago	Example experiment	Ashlee Russell
<input type="checkbox"/> Soil scientist		8 minutes ago	Example experiment	Christopher Sims DD
