# How to hide/show columns in iterations grid.

Step-by-step guide on how to hide/show columns in iterations grid.
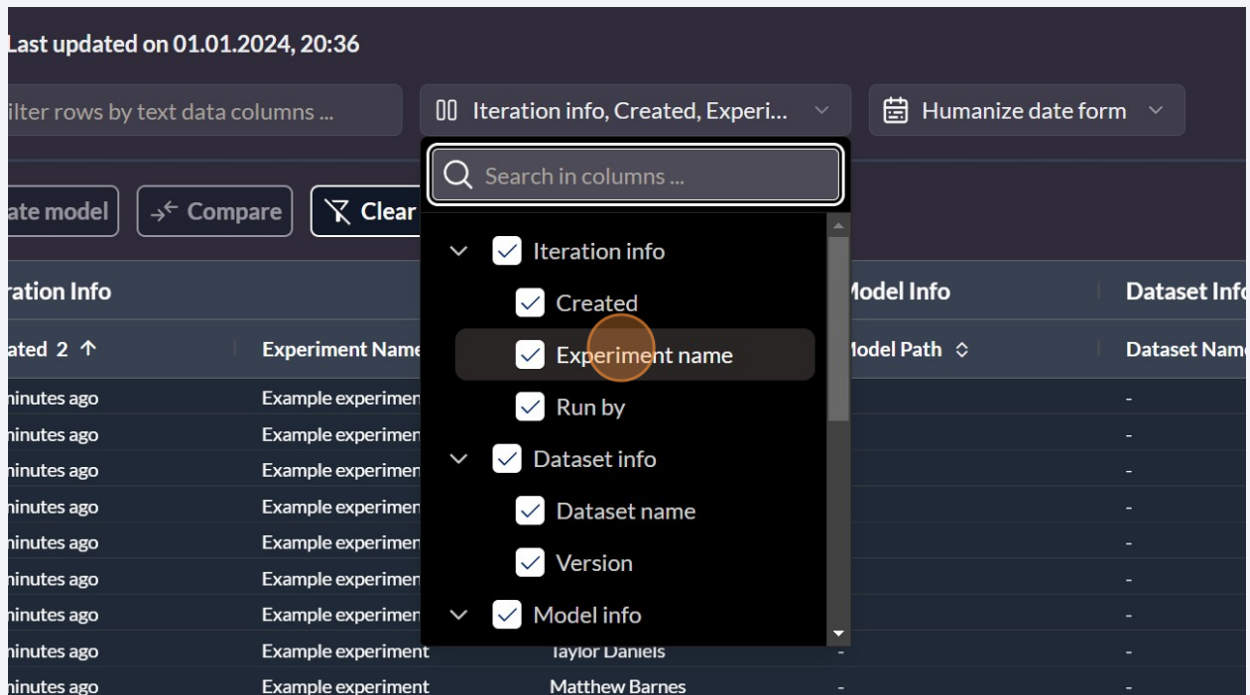

Scribe

1   Navigate to selected project and select experiments.

**2**   Click on **Selected columns** selection box.

3 Click on the column name to hide/show the column in the grid.

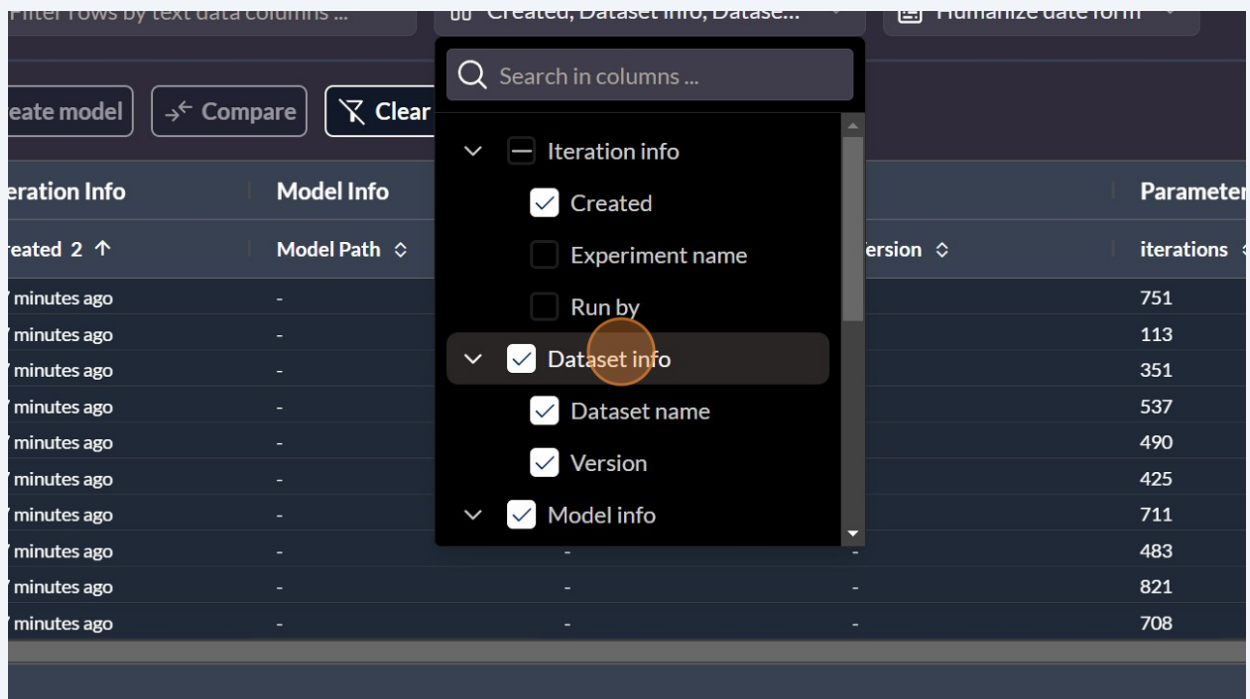

4

5 You can also hide/show the entire column section by clicking on the section header.

ℹ️ You can also click the checkbox to hide/show column, but this action will additionally close the selection box.
