How to delete an existing project.
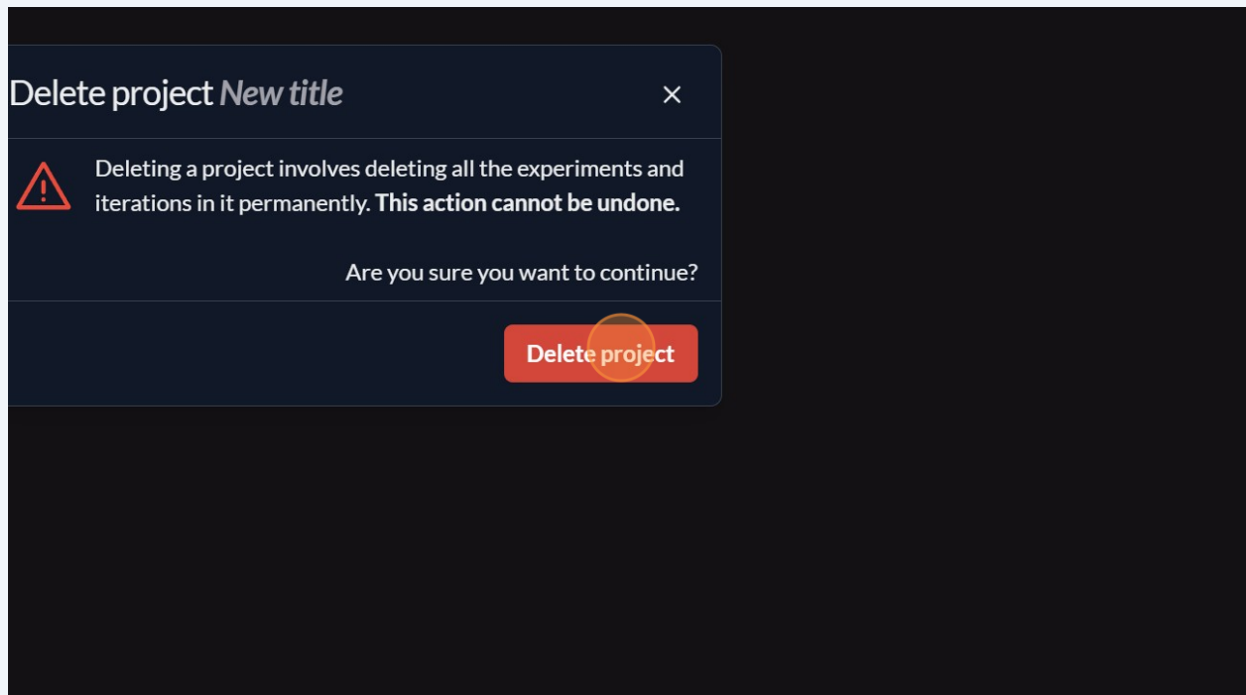

Step-by-step guide on how to delete an existing project.

1 Navigate to **http://localhost:3000/projects**.

2 Click on **Projects action** and click **Delete project**.
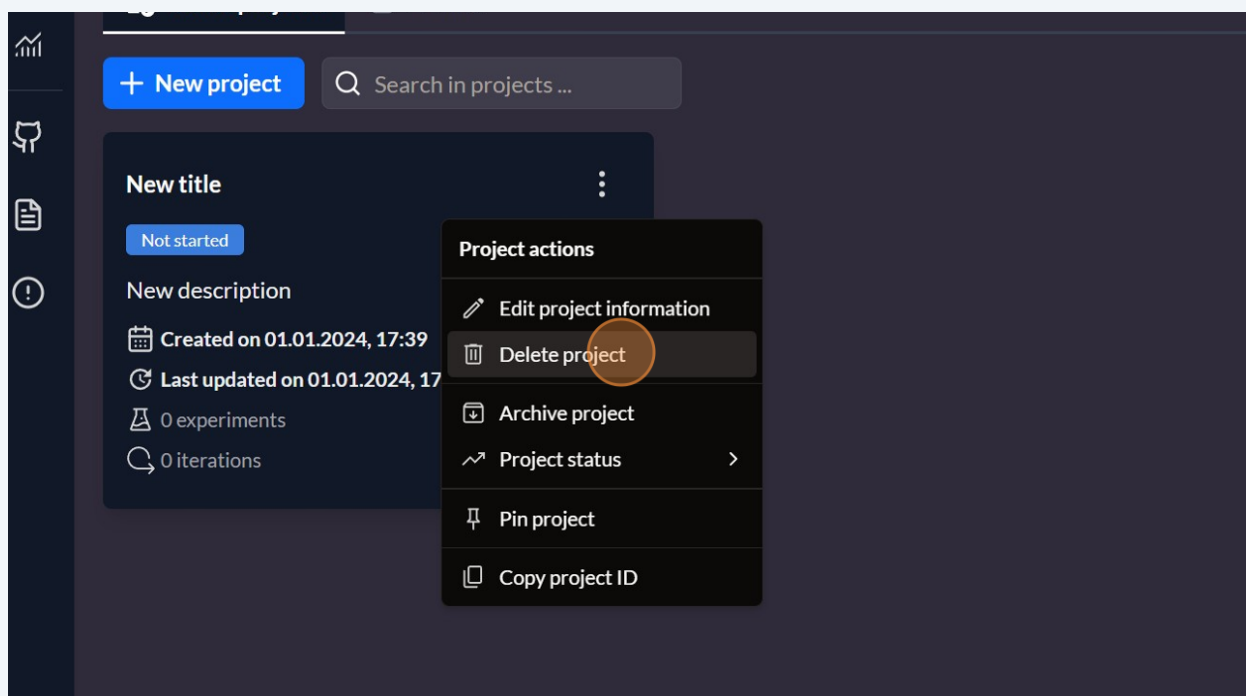

3 Click **Delete project** button.

Delete project *New title*   ✕

⚠️ Deleting a project involves deleting all the experiments and iterations in it permanently. **This action cannot be undone.**
