How to delete an existing dataset.
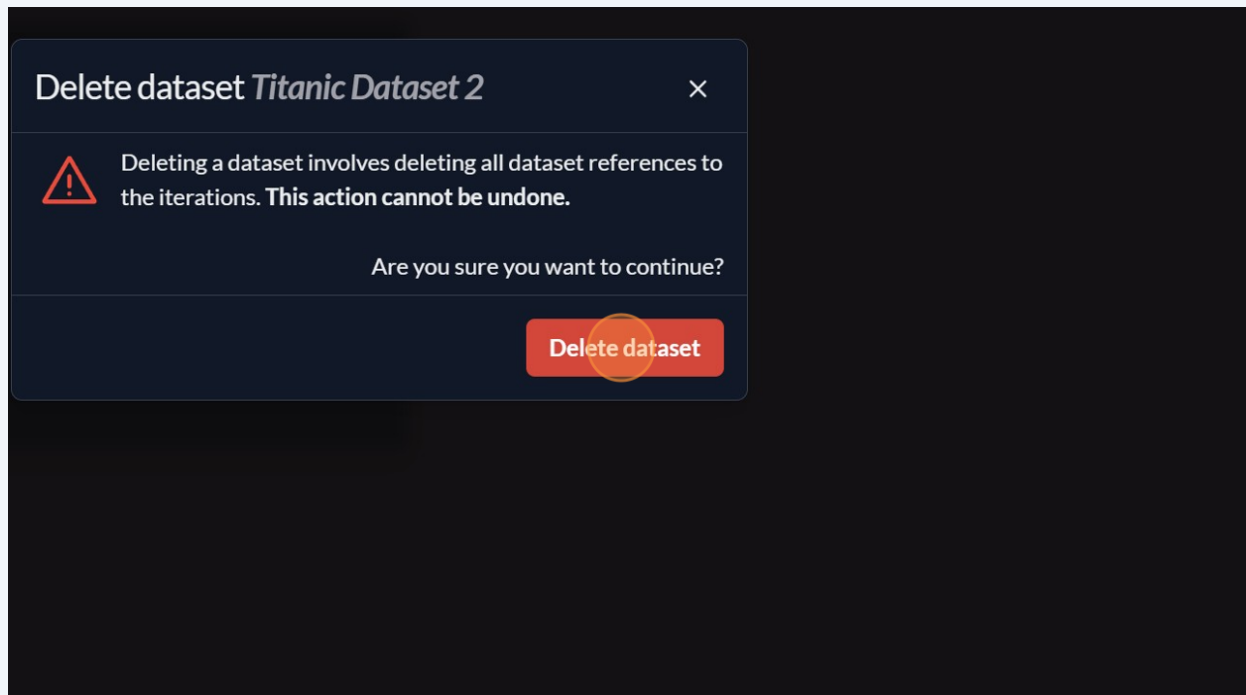

Step-by-step guide on how to delete an existing dataset.

1 Navigate to **http://localhost:3000/datasets**.

2 Click on **Dataset actions** and click **Delete dataset**.
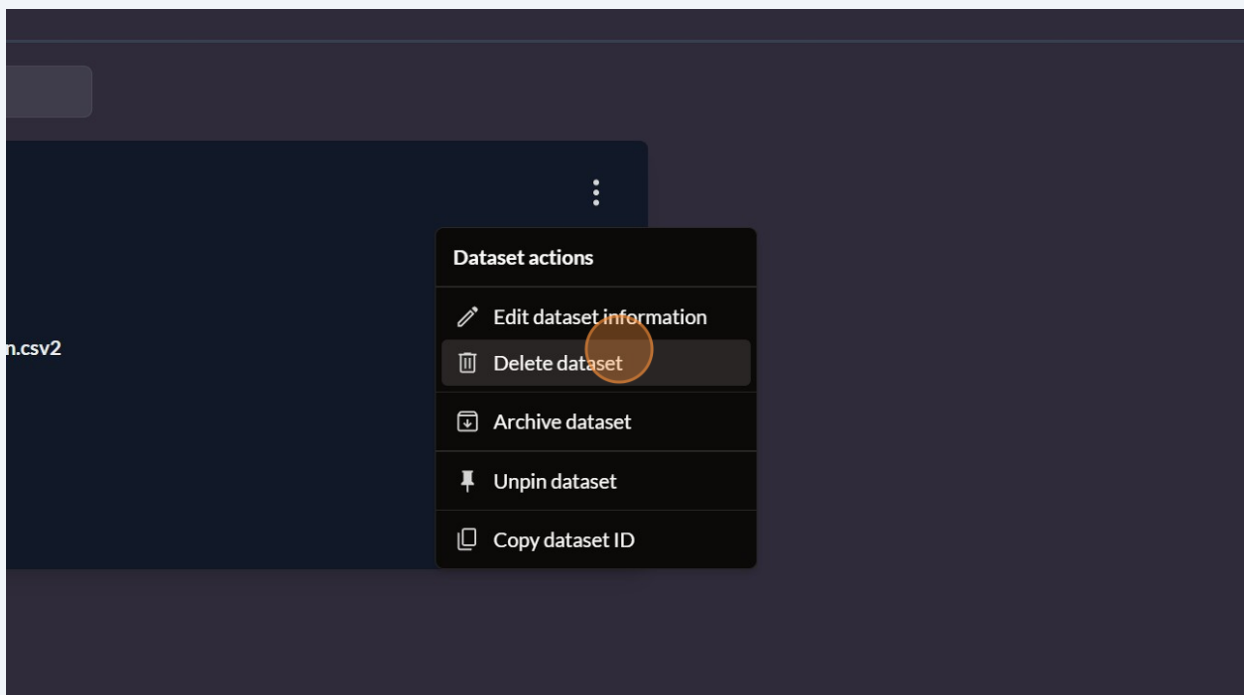

3   Click **Delete dataset** button.

Delete dataset *Titanic Dataset 2*   ✕

⚠️ Deleting a dataset involves deleting all dataset references to the iterations. **This action cannot be undone.**

Are you sure you want to continue?

Delete dataset

4   And there you go!
